EAST VILLAGE PARKING POLICY

Legacy Management has received complaints recently concerning weekend parking and the large number of unregistered visitors. Starting Friday morning 11/12/2010 Shamrock Towing will start more actively patrolling and towing. This means you must follow the rules below or your car is subject to tow.

1. Parking Pass must be visibly displayed on rearview mirror. If you have additional parking passes hanging, make sure you move your LMS pass to the front once you park in the East Village lot.
2. If you have a numbered covered parking row. You can ONLY park in that number. Passes with numbers on them will be towed if parked in open uncovered lot.
3. If you do not have a numbered covered parking row, the open parking lot is first come-first serve and you can park in any spot (including handicap and striped spots). If lot is full there is temporary overflow parking on blacktop surrounding glass area along 12th Ave. This too, is LMS permit parking only.

Please email legacymanagement@live.com with any questions or feel free to stop by the office.

Thanks,

Legacy Management
